Pursuant to the California Coastal Act, the University of California, Santa Barbara has prepared, and submitted to the California Coastal Commission, a Notice of Impending Development for the Segovia Road Access Project.

The Santa Barbara campus proposes to improve the existing pedestrian access from Segovia Road in Isla Vista to create a bicycle and pedestrian path connection to existing bicycle and pedestrian circulation on the western boundary of the Main Campus. An existing stairway would be demolished and a dirt berm would be graded to a 4:1 slope. Three mature eucalyptus trees would be removed.

The Notice of Impending Development is available at http://facilities.ucsb.edu/planning/downloads/default.asp or upon request at the UC Santa Barbara Office of Campus Planning and Design. For more information call 805-893-3796 or send email to shari.hammond@planning.ucsb.edu.
