UCSB – FACULTY CLUB RENOVATION AND GUEST HOUSE ADDITION PROJECT

The Santa Barbara campus proposes to expand and renovate facilities provided by the Faculty Club. The major project element is the development of 30 new guest rooms that would provide additional overnight accommodations for visitors to UCSB. The project includes improvements to existing Faculty Club facilities, including: remodeling interior facilities, including four existing guestrooms; renovating exterior areas; utility infrastructure and energy efficiency upgrades; and building code compliance upgrades, including seismic strengthening. The project includes exterior renovations the maximum dining capacity of the Faculty Club would increase from 150 to 282 people. After completion of the project, the square footage of the building would be increased from 13,915 to 29,750 gross square feet. The building would be approximately 40-feet high.

In accordance with the State CEQA Guidelines and University of California Procedures for Implementation of the California Environmental Quality Act, a Draft Initial Study/Mitigated Negative Declaration for the above named project has been prepared and approval of the project is pending a decision by the UCSB Chancellor.
