Notice of Public Hearing
Draft LRDP Amendment
University Of California, Santa Barbara
Faculty And Family Student Housing And Open Space Plan

Pursuant to the California Coastal Act, the University of California, Santa Barbara (University) has prepared an amendment to the University’s Long Range Development Plan (LRDP). The proposed housing projects comprise development of 217 faculty housing units on the University’s North Campus north of Ocean Meadows Golf Course, and 151 family student housing units along Storke Road and Whittier Drive east of Ocean Meadows Golf Course.

The University also proposes to amend its LRDP to expand the Coal Oil Point Natural Reserve by 40 acres, and to implement the Ellwood-Devereux Coast Open Space and Habitat Management Plan through the transfer of the University’s planned residential development from the South Parcel of the University’s North Campus, to concentrate development away from sensitive coastal resources to the north side of the Ocean Meadows Golf Course. The establishment of the Open Space Plan area and associated public access and habitat improvements are dependent upon approval of the proposed relocation of University faculty housing away from more sensitive coastal resources.

The University will hold a Public Hearing to collect comments on the Revised Draft North and West Campus LRDP Amendment on Wednesday March 22, 2006 at 7:00 p.m. The Hearing will be held in the Linda Vista room in Francisco Torres Resident Hall. The 6-week public review period began on March 8 and will end April 15, 2006. The purpose of the public hearing is to provide the public and other government agencies an opportunity to comment on the LRDP Amendment. Copies for review of the LRDP Amendment are available at the Office of Campus Planning and Design, Facilities Management, the UCSB Main Library-Government Information Center, the Goleta Public Library, and the Santa Barbara Public Library. The LRDP Amendment is also available at [www.ellwood-devereux.org](http://www.ellwood-devereux.org). Written comments must be received no later than 5:00 pm on April 15, 2006, addressed to:
