The purpose of the public workshops is to present information and receive public input on the preliminary concepts for the Ellwood-Devereux Coast Open Space and Habitat Management Plan (Open Space Plan) related to trail locations and improvements, parking and public access, beach access, and areas for habitat restoration.

The content and format of the meetings will be identical. Large exhibits will be available for review at 6:30 PM prior to the meeting, and agency representatives will be available to discuss the concepts. Copies of the Open Space Plan preliminary concepts document will be available on October 31 for review at the Goleta Branch Library, 500 N. Fairview Avenue, Goleta, and the University of California, Office of Government Publications at the University Library. Copies will also be available at the City of Goleta, the University Office of Budget and Planning, and the County Planning and Development Department (see addresses below). This document, as well as other project information, will be available online at http://www.ellwood-devereux.org on or before October 31.

The Open Space Plan is a collaborative effort sponsored by the City of Goleta, University of California, Santa Barbara, and County of Santa Barbara. The Open Space Plan will guide management practices on 665 acres of open space and reserve.

You can provide verbal comments on the preliminary concepts at the meetings, or you can send written comments to the City of Goleta by December 3, 2003.
